EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 6/21/2010, Otilia Gabor requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 50-1165(A-9806) the required fee of \$130 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

See attached amendments for claims 1 and 9.

Drawings

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: correction of figures 3 and 4 to correct for objections indicated in the Final office action 10/15/2009 and discussed during the interview dated 4/28/20109. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

Claims 1-13, 37-40 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The overall claimed combination of a quote and order entry system comprising: a computer system including a quote interface module adapted to receive information from a quote information source, the quote interface module assembling the received information in an interactive user interface, wherein in the interactive user interface a first category of information is displayed together with a first plurality of concentric bands each having a dimension determined based on ask size information and a second plurality of concentric bands each having a dimension determined based on bid size information is neither anticipated nor rendered obvious by the prior art.

Applicant has submitted in an email dated 6/21/2010 in order to overcome any 35 USC 101 concerns that: "please note that the computer system as claimed and as described in the specification does not intend to expand the definition of what a computer system is. Please see paragraph [0064] of the published application for example, where the quote and order system is described as comprising elements, such as an I/O interface, a memory, a processor, input devices (keyboard, mouse), display devices, etc. which are all hardware elements of a computer system, as well as a quote and order interface module. Thus, the quote and order entry system comprising a computer system including a quote and order interface module means a quote and order entry system with a computer system plus a module. Additionally, please note that the claim also recites an interactive user interface where the information is displayed. Thus, even without the recited computer system, the claim does include hardware".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KELLY CAMPEN whose telephone number is (571)272-6740. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alexander Kalinowski can be reached on (571) 272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
